

Inclement Weather Plan

Weather forecasts will be monitored prior to the event paying special attention to the possibility of heavy rain, thunder and lightning, high winds and extreme temperatures. If necessary, athletes will be made aware of these predictions on the events Facebook page (HSMCrunfortheirlives) so that they can adequately prepare for severe weather during the race as well as possible course alterations.

On race day, the Race Director will monitor the weather and make a decision if any action will be taken to delay the event. Possible scenarios include: change of race start time on the scheduled date, or cancellation of the event.

Wet, slick roadways, standing water and poor visibility due to heavy rains may require rerouting or shortening the course.

Visible lightning will cause the race to be postponed for a minimum of 15 minutes. Additional sightings will continue to delay the race in 15 minute increments.

In the event of cancellation due to inclement weather registrations are non-refundable.
